Vehicle Talk:

There is not a more complete or handsomer stock of vehicles of
every description in Kentucky than we are offering for inspection
now. It comprises everything in the most liberal sense of the word.
We wish to call special attention to our stock of DEPOT WAGONS,
OPEN WAGONS and STANHOPEs. It will pay you to call and in-
spect them.

Rubber Tires:

In this advanced age no vehicle is complete without RUBBER
TIRES. We have the latest improved machines for putting on the
Hartford and Goodyear 2-Wire tires. No more coming off. Riding
will be made a comfort to you and your vehicle will last twice as long.
Come in and investigate.

Farm Wagons:

All the best makes, such as STUDEBAKER, MITCHELL,
OWENSBO and OLDS.

Farm Implements:

This department is well stocked. You can find everything that
the farmer needs in this line. Vulcan Plows, Deering Harvesters,
Etc. And we want to call your special attention to the Torpedo Disc
Harrow; there is no better harrow on the market.

Field Seeds:

You need look no further for anything you need in the seed
line. Just tell us what you want and we have it. We have also Seed
Sowers of every make.

CAN YOU GUESS.

Here's a Chance to Make
Ten Dollars Easy.

All You Have to Do Is Pick the
Winners in the Coming
Primary.

Just for the interest attached to
guessing correct and to get a little
more interest into the coming
campaign for County officers, The
News will give its readers a chance
to make ten dollars and have a
little fun at guessing on the side.
To the person making the first
nearest correct guess of the win-
ners in the Democratic Primary
Election which will be held in this
county on Saturday, June 1st, 1901,
The News will present a ten dollar
gold piece. The conditions of the
contest are simple. Old subscrib-
ers and new subscribers who pay
\$2 on their subscriptions will each
be entitled to a guess, and as
many guesses as they pay year's
subscription. If no one guesses
correctly, the first one who guesses
the closest to all the winners will
receive the ten dollars.

You intend to pay your sub-
scription away, and you may as
well pay before the first day of
June and have a chance of getting
your money back, besides gaining
the distinction of knowing more
about the political situation than
your neighbors.

Each guess will be registered
when received as to the exact day,
hour and minute. No one will be
permitted to see how any one else
has guessed. In guessing only
the offices on the ballot are to be
considered.

PEARLS.

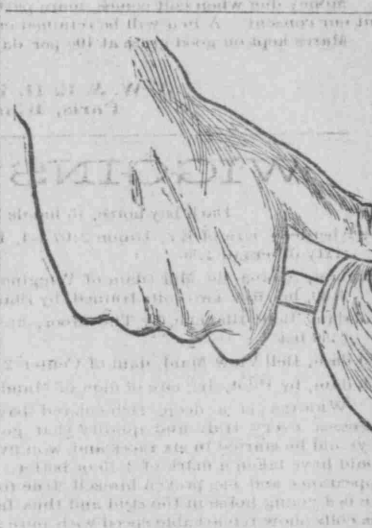

How to Find and How to Value
Them.

[Copyright 1900, by HERMAN MYER.]

41 and 43 Madison Lane, N. Y. City.

Usually the pearls are seen as soon as
the inside of the shell fish is examined
with the eyes. They appear either
perfectly plain in view or partly shining
through a small water blister. Generally
they are in the outside transparent part
or mantle of the flesh near the shell.

The best pearls are found in the point
of the shell near the "hinge" of the
shell. Pearls found in the
flesh between the two halves
of the shell are usually of better shape
and brighter luster than those found in
any other part of the shell. Many
pearls which have little or no luster, and
of numberless queer shapes, but almost
no value are found near the hinge. Oc-
casionally, however, better ones are
found under the ligament where it is
fastened to the shell.

How To Open a Shell

Introduce blade at point shown in illustration. Press down. This cuts one
ligament. With large shells it is necessary to introduce the blade in the other
end of the shell near the hinge and cut the other ligament before the shell can be
opened. Keep the knife blade away from the point "P" as far as possible, by
keeping it near the hinge of the shell.

fastened to the shell. Sometimes fine
ones are found attached to the shell. Do
not break such off, but send whole shell
with pearl attached. The better shaped
ones are found in the flesh near the
outer edge or lip of the shell.

As before stated, those which are
found nearest the point are most apt to
be brightest. For this reason you
should use care in opening the shell so
that the edge of the knife blade may not
touch the pearls, should one be found at
this spot. (See illustrations.)

You should also use great care in opening
the shells so that the best pearls may
not be lost. Pearls are often lost when
opened while you are standing in the
water, or when the shells are carelessly
examined and thrown aside.

Do not let a small fortune slip through your
fingers because of a little carelessness.

After the flesh is examined as directed,
the shell is thrown aside and a new
one opened and examined in the same
manner. This is continued with
patience, remembering, that while
every ten to fifty shells contain some
sort of worthless pearl, that only about
one in every thousand contains a pearl,
and only one in ten valuable pearls
is of much value. But as a man can
open from 1,500 to 5,000 per day, it is

FOR THE HOUSEWIFE

How to Prepare Stuffed Cabbage.
Cut out the root and remove one leaf
all around a sound savory cabbage.
Wash and in a kettle of salted water
cook ten minutes, drain, plunge in cold
water, drain again and squeeze the
water off. Scrape the heart out, mak-
ing it a bowl shape inside to receive the
stuffing. Chop fine two large onions
and put them in a small saucepan with
one heaping tablespoonful of butter.
Cook four minutes, tossing them so
they do not brown. Chop fine the heart
of the cabbage. Add the onions and
one pound of sausage meat or one
pound of fresh pork, half lean, half fat,
and chopped fine, and a tablespoonful
of chopped parsley. Season with one
teaspoonful of salt and one teaspoonful
of black pepper. Mix everything well.
Add two raw eggs and mix well again.
Stuff the cabbage tightly clear to the
top. Close it with two of its leaves and
tie it well. Cut in thin slices half a
pound of bacon, cover the bottom of a
grazer with them and put the cabbage
in. Pour in half a pint of broth, cook
one hour and a half, basting from time
to time. Remove the cabbage from the
pan, take off the leaves from the top,
sprinkle over half a pint of white bread
crumbs, strain the gravy, pour it over
and place in the hot oven for 30 min-
utes, basting twice.—Harper's Bazar.

Keep Growing Plants Well Watered.
Plants need a good deal more water
as the days grow longer and warmer
than they do in midwinter. They
should be given all they can make use
of. Watch the surface of the soil and
whenever it looks dry give more water.
Do not make the watering a matter of
three times a week and so much to a
plant, as many do, but be governed
by the evident needs of the plant as
shown by the soil.—Ladies' Home
Journal.

Shoes that please in style, fit and
price, are what the purchaser wants.
All these guaranteed at Davis, Thomp-
son & Isgrig.

Any one who has an old-fashioned
chair nowadays must be sure to have a
rush bottom to it if he would be in the
swing with the people who know what
is what in furniture. The best way to
do is to get a fine old chair of maple or
apple—first catch your hare—then have
it cleaned and rubbed so that the fine
grain of the wood will show, and lastly
—the seat of the old chair is sure to be
good—have the rush bottom put in, and
there is a chair which will be a delight
as long as it lasts, and that will prob-
ably be for an indefinite period.

Old Fashioned Chairs.

Prepare For the Summer's Garden.
At this season one may make great
provision for next summer's garden by
starting cuttings from desirable sum-
mer blooming plants. From one gerani-
um a dozen young plants may often be
secured without interfering with the
beauty of the old plant.

Secure a shallow box of coarse
sawdust, steep it in water and apply it
said at hand in which to insert these
cuttings. Keep it warm and always
moist all the way through.—Ladies'
Home Journal.

The SPORTING WORLD

When Your Wheel Rents.

Where has your wheel been during
the past four months and what con-
dition is it in for the coming spring
and summer? With the riding season
of 1901, but a few weeks away the
question is an opportune one. To
many riders possessed of long pocket-
books the condition of their 1900
mounts or the attention they may or
may not have received since the hol-
idays of the old year pressed the dif-
ference. The old mount was only in-
tended for one year's service in any event
and will be discarded or put into
storage.

You will find that pearl search will
pay you an average of fully three times
as much as any other form of labor.
While the season lasts. It is well to
get several others to go to the river
with you at the same time, because
when a dozen or more go at once, some
of you is sure to find a good pearl in a
few hours. The sight of this pearl will

Volodyovski for the Derby.

Volodyovski, favorite for the En-
glish Derby, holds the center of the turf
world at present. He is the most talk-
ed about and sought after horse on
both continents. Recently he was the
bone of contention between Lady Wil-
liam Beresford and Lady Meux. To
settle the question to whom the colt
would belong for this season the case
was taken into the English courts. Happily
the trouble was adjusted satisfactorily,
and he will go back again to Lady
Meux, who leased him to Lord William
Beresford.

Volodyovski is a bay colt, 3, by Flor-
et—T. Reine. As a 2-year-old he
ran nine times, of which number he
was returned a winner five times. His
first three efforts were failures. He
did not develop his great speed and
staying qualities till the season was
well advanced, and once in form he
defeated all the best colts of his age
without any great effort.

T. Weldon was Lord Beresford's
jockey for the high weights. He lost
on Volodyovski three times and then
won. It was common report at the
time that the stable was dissatisfied
with the way he rode the colt. Soon
after Weldon was disgraced. The
Reiff brothers, Lester and Johnny, then
had the job, and they won four
times out of five efforts. Lester Reiff
while here, this writer expressed the
opinion that Volodyovski was the best
colt in England.

Penn's New Gymnasium.
The gymnasium committee appointed
three years ago, to raise \$250,000
for a new gymnasium for the Univer-
sity of Pennsylvania, has made its re-
port, showing that all the money has
been raised, the architect's plans ap-
proved and laid down by the city of
Philadelphia on which to erect the
building. Work is to begin at once.
The building will be three stories in
height, gymnasium proper occupy-
ing the top floor. There will be a run-
ning-track gallery around the gymna-
sium one-tenth of a mile in circuit.
The swimming pool on the ground
floor will be 120 feet long by 42 feet
broad. The gymnasium proper will be
provided for fencing, sparring and
wrestling as well as for the use of the
physical director and gymnasium in-
structor. George Woodruff, expects to
be made director general, when the
new gymnasium is opened.
